

Protect Your Focus: Tools to Minimize Distraction

Pre-Load Better Alternatives (Harm Reduction)

Trying to white-knuckle through an urge often leads to breaking down and binging on something more addictive.

Harm reduction means having a lesser distraction ready to grab instead.

- ✓ Save newsletters, articles, or book excerpts for when you want to read.
- ✓ Queue up music, audiobooks, or podcasts for when you want background noise.
- ✓ Keep books, magazines, or other analog options near your computer.

brain.fm

Music with embedded neural rhythms designed to stimulate sustained focus.

Put on headphones, pick a focus session, and let it run in the background.

brain.fm

Focusmate

Virtual co-working. Book a 25, 50, or 75-minute session, get matched with someone, and work on video together.

Mics are muted, and you can't see each other's work. The simple presence of another person makes it harder to drift.
